
About Us

DEFCON AI is a modeling, simulation, and analysis (MS&A) company building cutting-edge technology solutions for generating operationally relevant insights for the next generation of logistics and mobility decision making. With both defense and commercial applications, DEFCON's next driving force in defining how logistics disruptions are handled.

We are Hiring a

Lead UI Programmer

DEFCON AI is looking to hire an experienced Lead UI Programmer. You will be in on the ground floor building leading-edge MS&A software in defense and commercial logistics. You will work in a highly collaborative environment, supported by technical and subject matter experts. You'll create the product through direct client interactions to determine feature sets and product/market fit. And you'll have direct access to leadership to build strategic direction. DEFCON is a flat, fast-paced environment where you will lead not only at the strategic level, but also day-to-day by diving deeply into business, product, and technical domains.

Qualifications:

- Full-time
- 4 years of experience required
- C# Experience preferred (familiarity with ComponentOne a plus)
- QT Experience preferred (familiarity with QT for WebAsm a plus)
- Web (HTML5, CSS3, WebAsm) experience preferred

Benefits

- Remote-First Work Policy
- Unlimited PTO
- Employer paid Medical/Dental/Vision Plan
- Employer paid Life and AD&D Plan
- Personal development budget for employees
- Great culture!

We're an Equal Opportunity Employer: You'll receive consideration for employment without regard to race, sex, color, religion, sexual orientation, gender identity, national origin, protected veteran status, or on the basis of disability.
