

About TARA Mind

TARA Mind is raising the standard of mental health care by enabling safe and affordable access to psychedelic-assisted therapy. We are building *the* premium network of independent mental healthcare professionals that employs a holistic therapeutic support model encompassing preparation and integration services as well as evidence-based measurement protocols. Our platform is focused on expanding access to proven psychedelic-assisted therapies to help those with treatment-resistant mental health conditions that have not responded to traditional models of care. We are committed to eliminating consumer barriers to affordable care by offering TARA Mind's provider network as a covered employee benefit through employer health plans.

TARA Mind is a Public Benefit Corporation that is led by veteran Navy SEAL and Founder VETS Inc., Marcus Capone, and is backed by Red Cell Partners, an incubation firm building and investing in scalable technology-led companies that are bringing revolutionary advancements to market in the healthcare industry.

We are Hiring a Clinical Program Director

Duties and Responsibilities:

Join the TARA Mind team as our Clinical Program Director and spearhead our efforts in three strategic areas:

PROVIDER NETWORK DEVELOPMENT & PERFORMANCE:

- Represent TARA Mind's clinical voice in support of network development efforts
- Evaluate and screen psychedelic-assisted therapy provider network applicants for inclusion in TARA Mind network based upon standards of care criteria
- Monitor network performance in support of holistic treatment support protocols (preparation, integration, ongoing monitoring, and outcomes measurement) and develop communication campaigns to share and promote best practices across TARA Mind's provider network

CONCIERGE PROGRAM EXPERIENCE:

- Take ownership of Phase 1 development of care navigation support model for individual users and provider network engagement. The Clinical Program Director will:

- Serve as the primary interface with individuals and providers during Phase 1
- Communicate psychedelic-assisted therapy protocols and the importance of a holistic clinician guided preparation, integration, and monitoring experience
- Develop concierge program content, including Q&A scripts, to support expansion and automation of initial user experience care navigation experiences
- Lead training, performance monitoring, operational improvement, user experience accountability, and scaling of Phase 2 Concierge program

CLINICAL LIAISON FOR PRODUCT TEAM:

- Partner with TARA Mind's product team on development and refinement of standards of care content and user experience for individuals and providers
- Develop and execute strategies to activate robust provider programming and facilitate discussions amongst the TARA Mind provider community to drive engagement and retention and position TARA Mind as the forum for psychedelic-assisted therapy best practice sharing
- Support enterprise team efforts with employer outcomes value story reporting

QUALIFICATIONS:

- Master's Degree in Mental Health discipline
- Psychedelic-Assisted Therapies Certification(s)
- Current license in a Mental Health discipline in a least one state
- 5+ years of psychedelic-assisted therapy experience involving preparation and integration
- Deep knowledge about the experience and effects of psychedelic treatment(s)

OTHER KEY ATTRIBUTES:

We are looking for mission-driven applicants. The ideal candidate is an empathetic, thoughtful, and a patient-focused self-starter who is able and willing to actively represent the "Voice of the Provider" as part of a highly collaborative early-stage team.

We're an Equal Opportunity Employer: You'll receive consideration for employment without regard to race, sex, color, religion, sexual orientation, gender identity, national origin, protected veteran status, or on the basis of disability.
