

## ABOUT US

Red Cell Partners is an incubation firm building rapidly scalable technology-led companies that are bringing revolutionary advancements to market in healthcare and national security. United by a shared sense of duty and deep belief in the power of innovation, Red Cell is developing powerful tools and solutions to address our Nation's most pressing problems.

## WE ARE HIRING A

# EXECUTIVE CARE MANAGER

Red Cell is looking to hire a Executive Care Manager for one of its incubations that is focusing on telehealth for seniors in long-term care. The Executive Care Manager will provide virtual care management services to the communities that the company will service. The incumbent will additionally work closely with the product and clinical teams and will help to shape the company's care management service model and software platform.

The incubation's work is fully remote.

## ESSENTIAL DUTIES AND RESPONSIBILITIES:

- I. Provide virtual care management to residents in residential community long-term care
  - Engage with community operators and residents to develop, implement, and maintain care plans
  - Evaluate resident's clinical needs and direct to appropriate clinical personnel in the company's care team or to community partners
  - Implement up-to-date clinical practice guidelines into care management workflows
  - Implement communication workflows to ensure all relevant parties are notified regarding changes to resident's health and care status
  - Schedule medical, diagnostic, and other appointments and facilitate relevant communications ahead of appointments
  
- II. Shape the development of the company's care management platform and service model
  - Partner with the company's technical, engineering, and clinical staff in the process of building out the company's platform and product offerings.
  - Work closely with clinical and long-term care stakeholders to define software platform and service requirements related to care management services.

- Work closely with team members to ensure that software platform development aligns with virtual care management services being provided by the company's care team.

III. Build and lead the company's care management team

- As the company's first care management role, you will lead the development of the company's care management team
- Develop strategies for efficiently leading a care management team in a virtual setting

## QUALIFICATIONS:

- Must have an RN license.
- Licensure in WA and/or CA preferred
- Prior experience serving geriatric population and/or residents in long-term care.
- 10+ years of experience in the long-term care industry (assisted living, adult family homes, etc)
- Well-connected across the long-term care industry.
- Deep knowledge in the internal operations and compliance requirements of long-term care communities.
- Prior experience shaping and developing innovative healthcare and service models.
- Prior experience providing care management services.

## BENEFITS:

- Unlimited PTO
- Employer paid Medical/Dental/Vision Plan
- Employer paid Life and AD&D Plan
- 401k Plan
- Personal development budget for employees
- Great culture
